

# **Gunma University Graduate School Education Policy**

## **Admission Policy**

### **We seek the following applicants**

We seek applicants who have academic skills and capabilities required by the graduate schools or institutes according to their programs or specialties. Applicants should be motivated to contribute to the development of society through research and practice.

## **Curriculum Policy**

### **We conduct education as follows**

In order to foster researchers who can be internationally active and have a creative capability, and highly specialized professionals who have a practical skill, we organize and implement systematic curricula toward realization of the educational goals according to the programs or majors of the graduate schools or institutes, aiming to cultivate students' fundamental education in specialties and encourage students to master sophisticated technical knowledge and skills.

## **Diploma Policy**

### **We develop human resources as follows**

We confer a degree on persons who can conduct research activity in their specialties inventively and independently, based on broad and rich knowledge, and who have acquired the skills to fulfill a profession requiring a high degree of expertise and internationality, as well as a sense of ethics as an researcher, engineer or highly specialized professional, and who satisfy the completion requirements set according to the programs or majors of the graduate schools or institutes.
